

Dear Mr. Kline:

Please let me share with you a short report about my studies after my BBA graduation in June 2008.

I am still working at Angkor Hospital for Children (AHC) at the same position. In addition to the previous tasks, I have been responsible for designing all PR/marketing materials plus updating the website of AHC on regular basis.

Currently, I have been taking the MBA course at the Build Bright University since I am unable to study abroad because it is too expensive. I already finished the first subject, Marketing Management, and now I am taking the second subject, Quantitative Method Management.

The donation of US\$1,000 from you to support my MBA course in 2010-11 is much appreciated and I am very grateful. It has helped me while I have continued to support my family as well. Study and work at the same time are hard, but I am still happy in doing it because the study is really helpful to my daily work at the hospital as well as other work I do in the community.

Finally, I would like to express a special thank you for your support for my studies and for the other students, plus your support for the hospital as well as the Sam Relief organization. I am hoping that you will continue to be a good friend and supporter to Mr. Sambonn in the future.

Sincerely yours,

Sinketh Arun
