Dear Mr. Sambonn Lek, President:

It is so important that each child be in optimum health in order to work and study at his/her potential. Hopefully asthma and diabetic medications will contribute to this goal. These children are part of the future generation of Cambodia and the Sam Relief Fund is building a better tomorrow for them.

We want to contribute \$200, \$100 each to asthma and diabetic medication.

Thanks for your dedication to helping the people of Cambodia.

Sincerely,

Anne and Larry Satchell
